TO REMEMBER...

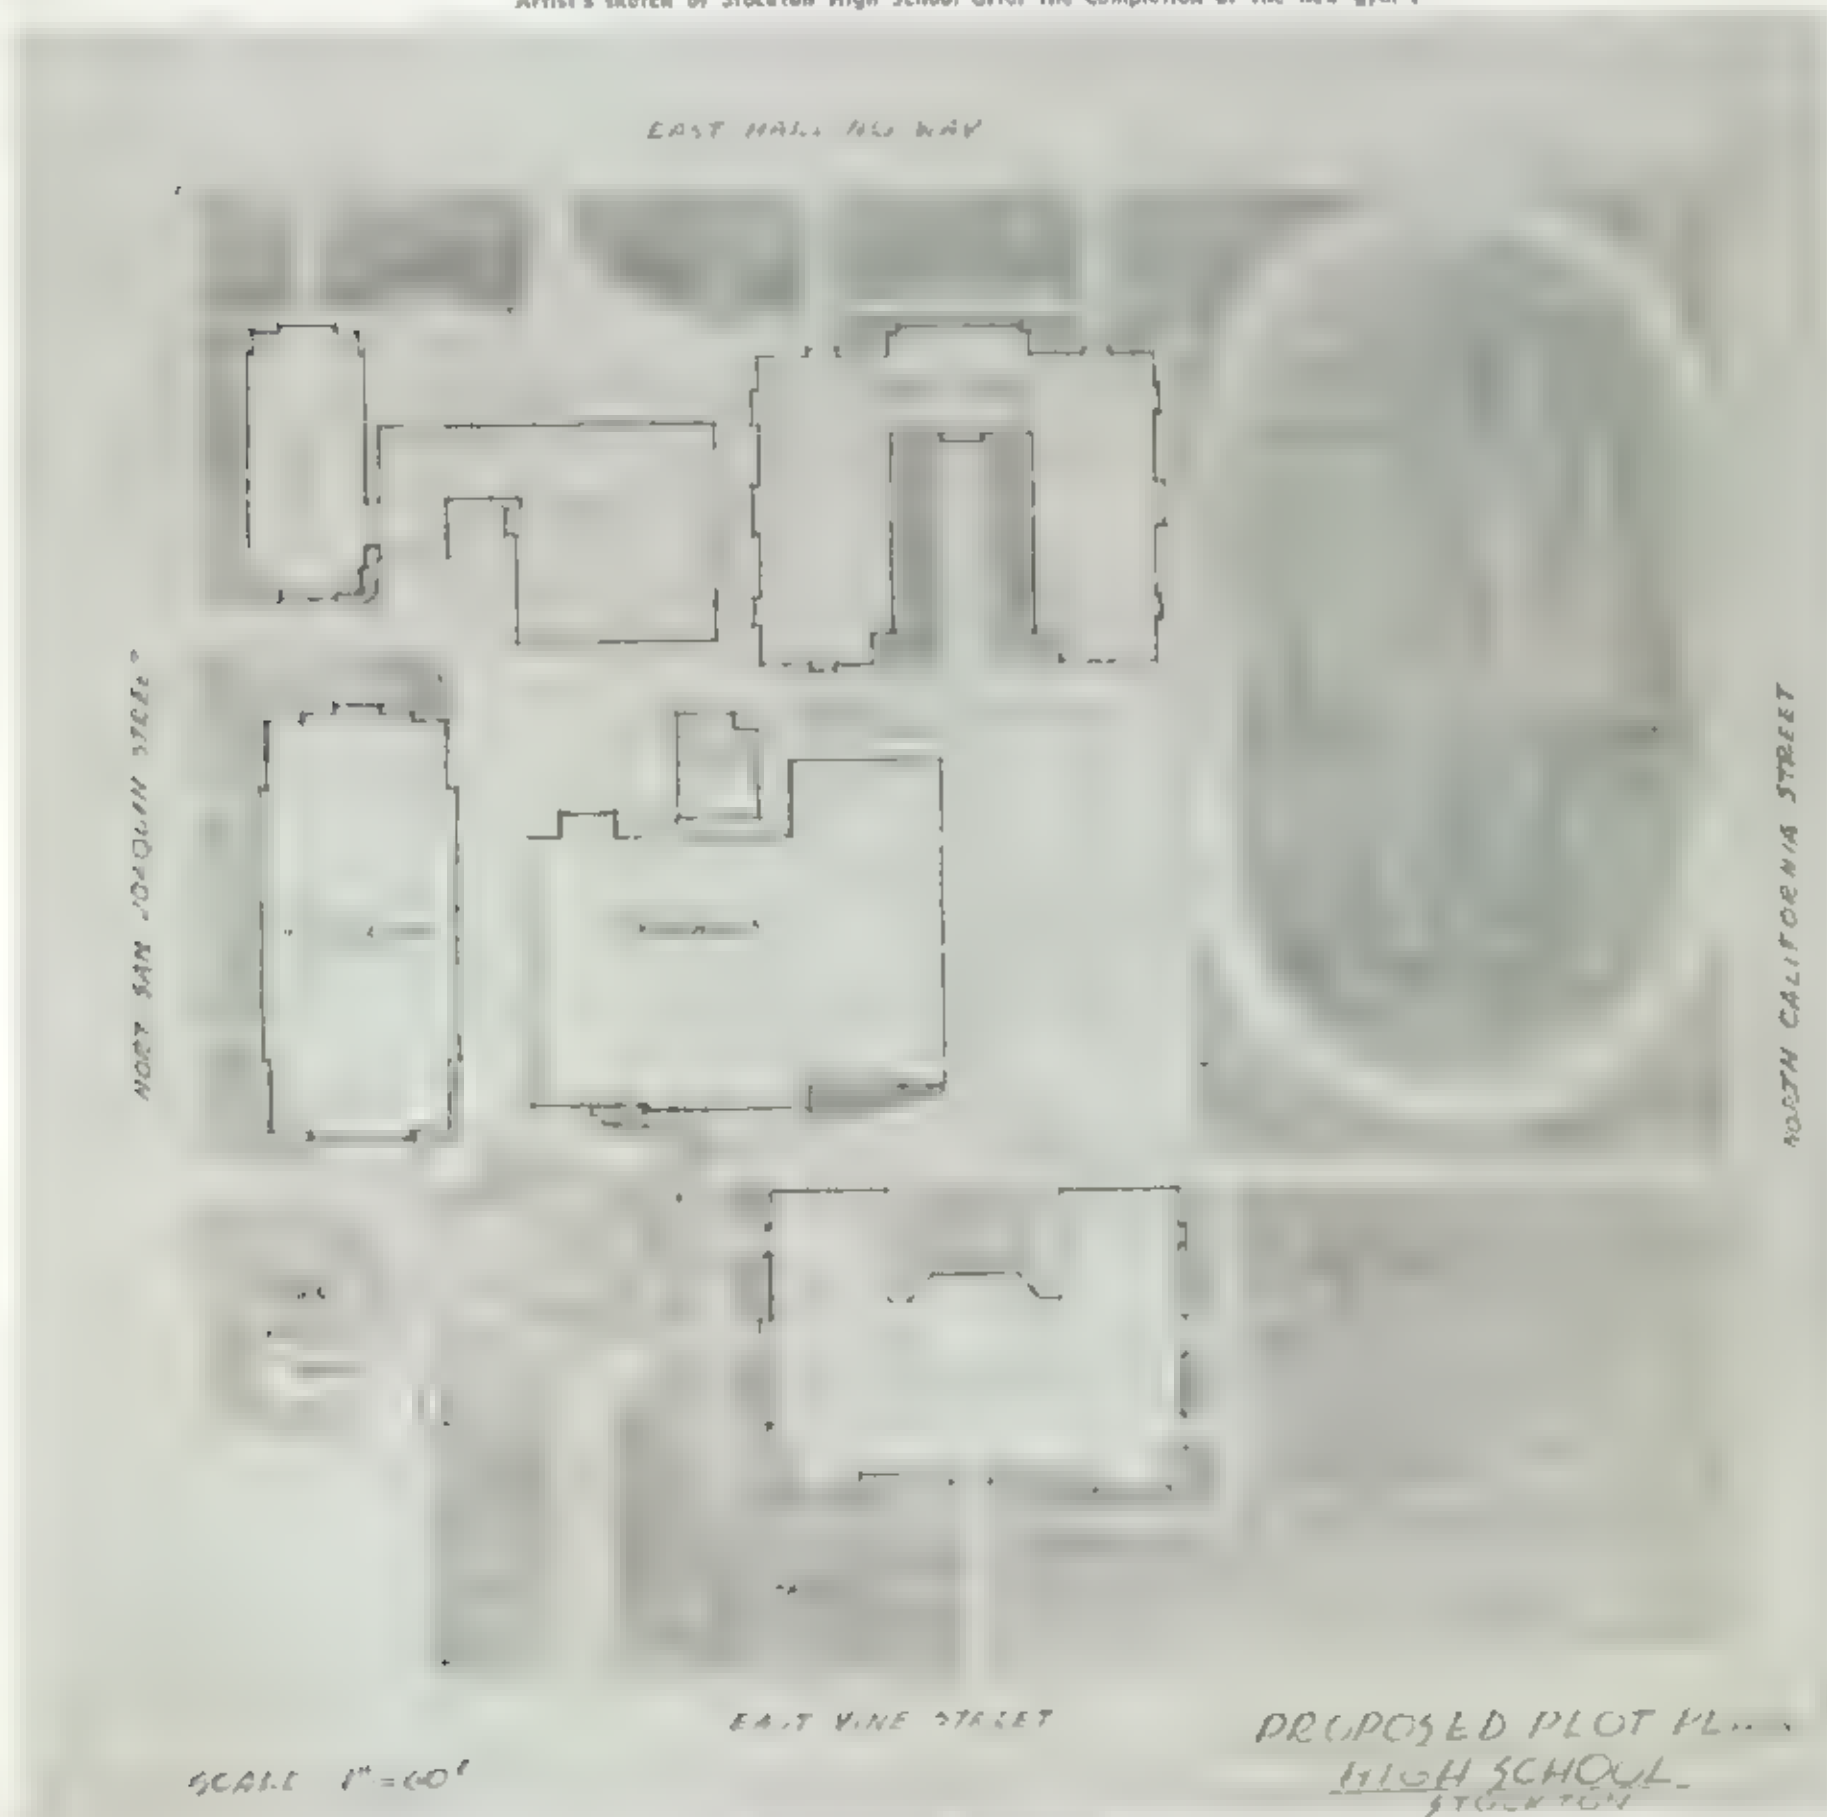

The Stockton High School building, which was completed in 1960, is a fine example of modern architecture. It is a large, rectangular building with a flat roof and a series of windows that run along the top. The building is surrounded by a lawn and a few trees. The building is a good example of the type of architecture that was popular in the 1960s.

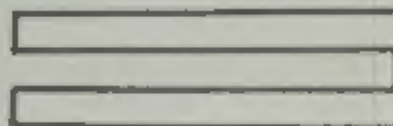

JACQUELYN DEE SCOTT

JOAN POTTER
